## *Our Services Help You*

1. ***Save** Money and Time*
2. ***Learn** about all your Insurance Options*
3. ***Compare** Policies, Prices and Companies*

# *Frequently Asked Questions*

**I have Medicare, why do I need a Supplement also?** Medicare was not designed to cover all medical expenses. Supplements which vary in design to meet individual needs and budgets, provide true financial protection at a time when constantly increasing 'out of pocket' costs are a growing concern.

**Will my doctors accept a Medicare Supplement?** Yes! Any doctor who accepts Medicare, (almost all do) automatically accepts Medicare Supplements.

**Do I need a referral to see a specialist?** No. Medicare does not require a referral to see a specialist. You may obtain care from primary care physicians and specialists without the requirement of referrals and pre-authorizations.

**How is my coverage affected when I travel?** Simplicity is one of the biggest advantages of a Medicare Supplement. You can receive care anywhere in the U.S. without any restrictions. This can make all the difference.
